

BR 35/12 C scrubber drier

Highly manoeuvrable, user-friendly and easy-to-maintain, the BR 35/12 C scrubber drier is a professional and efficient tool for cleaning small areas and cluttered surfaces. The machine is fitted with a rotatable roller brush head with KART technology (Kärcher Advanced Response Technology), making it perfect for tight corners and cleaning in reverse if necessary. The new lithium-ion battery has a prolonged running time, making it 3 times more durable than normal lead batteries. It is completely maintenance-free and quick to recharge. The machine's lightweight design helps you to negotiate steps and facilitates transportation. The eco!efficiency mode reduces energy consumption, increases the running time and lowers the volume by around 40%.

Features and benefits

Brush head rotatable by +/- 200° with KART technology, allowing the machine to be steered. For easy negotiation of curves

Includes high-performance lithium-ion battery

eco!efficiency mode

Compact device

- Extremely manoeuvrable and effective – ideal for areas with a lot of furniture.
- The brush is always transverse to the direction of travel. The suction bar reliably absorbs the water in every corner.
- If necessary, cleaning and vacuuming can also be done in reverse.
- Completely maintenance-free despite a service life that is three times longer than conventional batteries.
- Interim or partial charging is also possible where necessary.
- Quick charging (full in three hours, half full in one hour).
- Saves resources and extends run time by up to 50%.
- 40% reduction in noise level.
- Reduced CO₂ emissions.
- Driving away from the wall is possible at a 90° angle.
- No protrusions from the device; easy handling.

- 35% lighter than comparable devices.
 - Can easily be carried over steps, thresholds or stairs.
 - Simplified transport in vehicles.
 - Compact storage.
 - Can also be transported in small vehicles.
 - Ergonomically adjustable for different operator sizes.
 - The charger is always there; charging is always possible.
 - Can be fully recharged in three hours or semi-charged in one hour. Interim charges are possible at any time.
 - Charger automatically switches itself off. No energy consumption in standby operation.
 - High contact pressure for removing stubborn dirt.
 - Very good even on rough floor coverings or for cleaning crevices.
 - Uniform cleaning result.
 - Efficiently sweep, scrub and vacuum in a single procedure.
 - Vacuums small stones, splinter of wood and other small parts.
 - For optimal operation of the suction bar.
- Very low machine weight
- Handlebar can be folded down
- Handlebar height-adjustable
- Includes high-performance on-board charger
- Roller technology
- Includes Sweeping function

Specifications

Technical data

Working width, brush (mm)	350
Working width, vacuum (mm)	450
Motor rating (W)	500
Battery (V/Ah)	25.2 / 21
Battery capacity (Ah)	21
Battery voltage (V)	25.2
Fresh / waste water tank (l)	12 / 12
Brush contact pressure (g/cm ²)	150
Brush rotation speed (rpm)	700 / 1500
Max. area performance (m ² /h)	1400
Practical area performance (m ² /h)	1050
Weight (kg)	35
Weight with battery (kg)	35
Dimensions (L x W x H) (mm)	1000 x 450 x 1300
